Editorial

This first issue of AU-eJIR contains 10 research and academic articles in interdisciplinary domains. It is very heartening to note we received papers from India, Nepal, Nigeria, Philippines, Thailand, USA and Vietnam. Majority of the papers included in this edition are research papers driven by data and comprehensive analytics. Each paper is provided with an Abstract, a downloadable Microsoft Word as well as an Adobe PDF file. In June 2016 you will be able to download the whole journal as a single PDF file and use it as a record of your writing. To open and read your files you must have Microsoft Office 2007 and above and Adobe Acrobat Reader. You can download a free version of PDF reader plug-in installed from Adobe Website. If you would like more information about how to print, save, and work with PDFs, Highwire Press provides a helpful **Frequently Asked Questions about PDFs.**

Alternatively, you can download the PDF file directly to your computer, from where it can be opened using a PDF reader. To download the PDF, click the download link - **https://get.adobe.com/reader/**

I am very indebted to our university President Rev. Bro. Bancha Saenghiran, PhD for his faith in GSeL to commission this new Journal of Interdisciplinary Research (eJIR). I am also thankful to Dr. Chanintorn Jittawiriyanukoon, our Dean for his unflinching support for this new venture. I am sure that next edition of this journal which will be published in July 2016 will have many more contributors as well readers from all around the world.

In the end let me thank all the writers for their efforts and contributions.

Kuldeep Nagi, PhD
Fulbright Fellow (USA)
Assistant Professor
Managing Editor- eJIR
